

## The Peninsula Simulation Suite

The Peninsula Simulation Suite is officially in rooms F and G of the Level 5 Peninsula Medical and Dental School Seminar Rooms, The Terrence Lewis Building, Derriford Hospital, Plymouth, Devon. PL6 8DH.

### Directions to Derriford Hospital:

Take exit off Derriford Roundabout on A386 (Tavistock road) signposted to the hospital, along Miller way, the hospital is just along this road on the right. Parking is currently £3.00 for the day at the hospital. There is a park and ride scheme, from just to the north of the hospital where you can park for the price of the bus ticket to the hospital (~ 10 minute journey, ~ £1.70 return).

### Once at Derriford:

You have two workable options;

- a) Come in through the Maternity Entrance at the west side of the hospital (round to the right from the Main Entrance). You will already be in the same floor as the Sim Suite, level 5, simply walk along the long corridor until just before it turns left. There on the right will be a set of double doors, through those will be another set marked 'Lind Research' And beyond those a third set of double doors, after which you will find us at the end of a short corridor.
  
- b) Come in through the Main Hospital Entrance on Level 6. Go past the shops and the lifts on your right to a corridor T-Junction, at which you should go right. This corridor will turn left then right past X-Ray, just as you go right in front of you will be a set of double doors marked Terrence Lewis Building. Through them on the left before Torcross ward are some stairs (lift on the right), go down one flight to level 5. Out the doors, turn left through the 'Lind Research' door, go past them through the next set and you will find us still at the end of the short corridor.

See You There!!
